Description

This property is located in an exclusive compound between Montpellier and Saint Gély du Fesc which stands out as a much sought-after and peaceful residential area surrounded by a very green landscape drawn from its abundant pine trees conferring an impression of security and privacy, each property having been developed on ample plot sizes.

This villa sits on a flat garden of 3,000 m² planted with typical Mediterranean species like pine trees, providing refreshing shade during the sunny summer months. The garden and different outdoor spaces are decorated with Balinese Art pieces such as Buddha sculptures and pagodas; it also offers several different areas and decked terraces furnished with garden sofas, cosy armchairs, as well as dining facilities, and plenty of sun loungers, all facing the long rectangular swimming pool. Located at the bottom of the garden under the shade of the trees is a pétanque ground (boules game) flanked by another seating and dining area ideal for apéritifs or barbecues.

The villa is essentially a large bungalow of approximately 200 m² with direct access to the garden from most of the rooms. The interior is decorated in a relaxed contemporary style which immediately conveys the impression of a holiday lifestyle. The living room and modern open kitchen area directly face a pleasant large covered terrace to the South overlooking the swimming pool and a garden. The kitchen also opens to a side terrace equipped with dining table and chairs as well as a large plancha.

One wing of this floor hosts the parental suite with its own bathroom and dressing room and TV, as well as another double bedroom or office equipped with a double sofa bed and with en-suite shower room. A long corridor leads to two independent studio rooms, each equipped with a double bed, a TV, a kitchenette, an en-suite shower room, and with bay windows opening directly into the garden. This same corridor leads to a garage for one car.
