More Info

The owner, David, lives for approximately 9 months of the year in the well segregated house adjacent to this Gîte. The gîte was originally a detached annexe to the house and consisted of just a small bathroom and bedroom. It has since been extended to form a Gîte so that there is now a living area of approx 30 sq. metres as well as a patio of 16 sq. metres with a plunge pool. This was accomplished in 2013. Loving this area so much that it seemed a shame for the then annexe to be unoccupied when it could be appreciated by others. Much care has been taken over the decoration and furnishings to ensure that guests will have a relaxing holiday and come to love the region as much as they do.

This area was chosen as it benefits from lots of sunshine, has easy access from the UK and is better value than Provence. The gîte is on the outskirts of the little village of Ginestas which makes everything really convenient. Everywhere you want to go is just a short drive away.

The views are stunning, looking over olive trees. It really is a great holiday location and, of course, the wine is excellent! And, an added bonus - practically no mosquitoes!

Having been here for seventeen years the owner has accumulated a wide knowledge of the area and look forward to passing some of it on to you. Guests are pre-supplied with access to the website Guest Area which has very comprehensive detail on where to find places, suggestions, restaurants, drives, beaches etc.
